## **PennrIDGE High School Senior nominated as an All-American High School Soccer Player & Student Athlete**

**Perkasie, Pa.**

PennrIDGE High School Senior Shane Velez has been nominated as a 2022 High School All-American. Shane is one of only nine players from Pennsylvania and one of only a handful of Soccer standouts to be chosen from Southeastern Pennsylvania. According to the All-American selection committee, “Shane was selected for his elite level of play at the club level in major tournaments across the country and for his play at the USYS national championships this past summer. Throw in his high school resume and Shane is exactly what this All American team roster is looking for.” As a nominee, Shane will now be evaluated by a panel who will make the final decision for official All-American status and title in mid-October and play in the All-American invitational soccer game in Florida on December 10, 2022.

In addition to impressive accolades on the field for the Rams over the last four years, Shane is equally impressive as a student. Shane’s Overall GPA is 4.429, his class Rank is 7, his SAT Score is 1440, and he has chosen to take rigorous courses at PennrIDGE High School and is planning to possibly major in Engineering while in College.

The PennrIDGE School District “Ridge Channel” on YouTube made a highlight video that shows not only Shane, but also how he is viewed by his peers, teammates, younger students, and teachers that have helped him along his journey. The PennrIDGE community wanted to be in the video to help the All-American know the caliber of this young man and why, as we say around here, we are #PennrIDGEProud of Shane Velez! [The video can be viewed here.](#)
