_____ will have only _____ additional days of absence and then a doctor's note will be required.

During such trips, the student is responsible to make up all work during his/her absence from school. On the last school day before the trip begins, the teachers will provide the assignments to be completed during the trip. The student will turn in the completed work on the day that he/she returns to school. He/she will be prepared to take any missed tests during the first three days upon returning to school.

It is important to note that regular school attendance is essential to the successful completion of any education program. Pennsylvania law states, "A maximum of ten days of cumulative lawful absences *verified by parental notification* may be permitted during a school year. All absences beyond ten cumulative days should require an excuse from a physician."

Thank you for your cooperation in this matter.
